1 | Access, Roles & Login

AirPlus Intelligence **Data+** is a **fee-based module**. Please contact your AirPlus representative to benefit from the **next generation of data excellence**.

Login & Roles

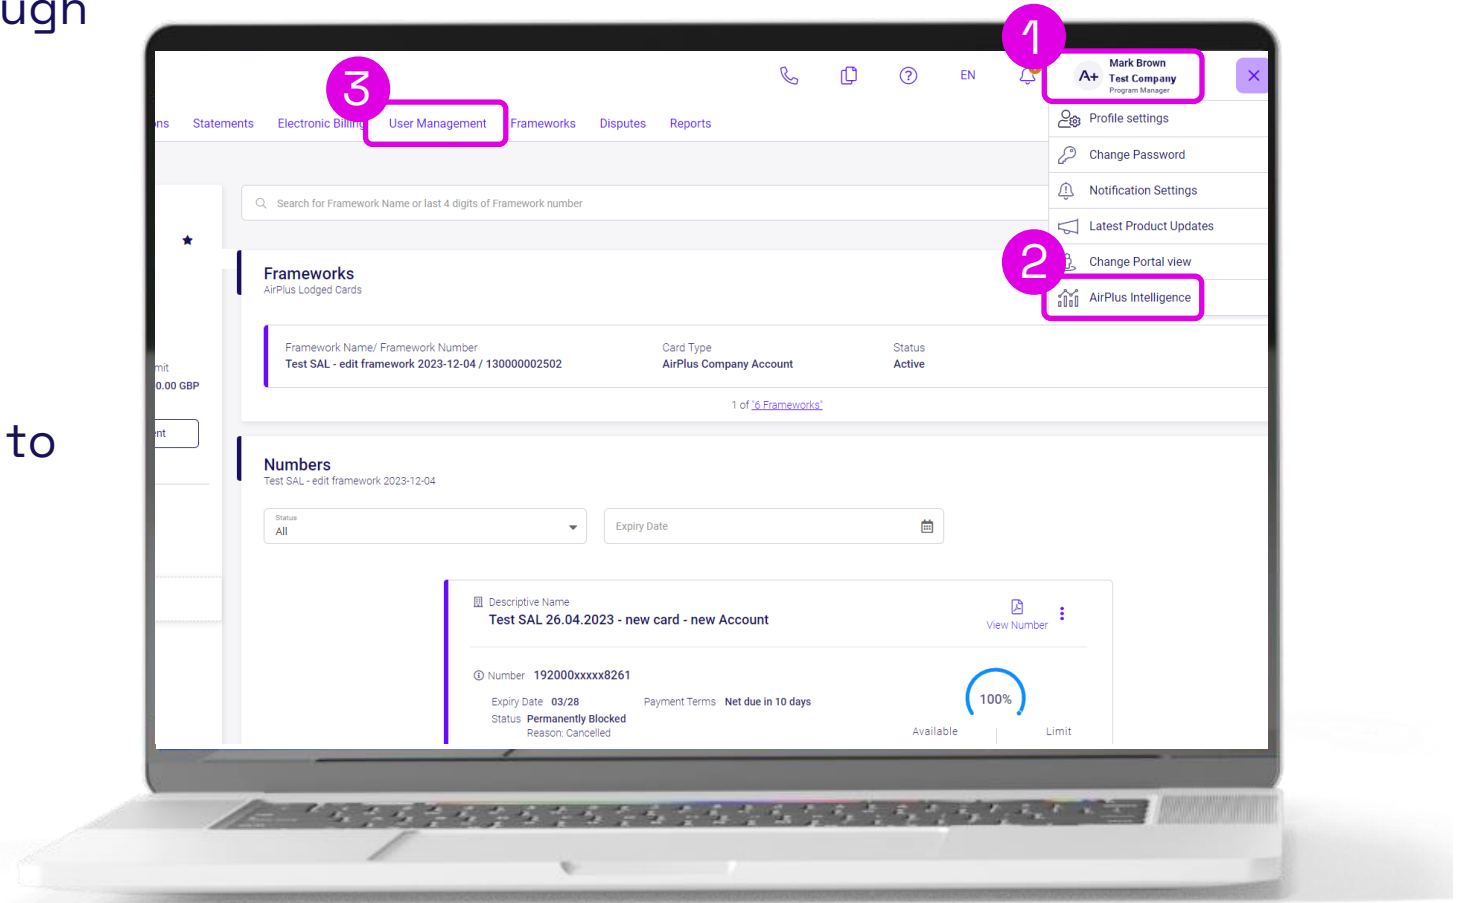

Login

AirPlus Intelligence can be accessed through the [AirPlus Portal](#) 1 2 or ai.airplus.com, using the portal login credentials.

Roles

The Program Manager and Portal Administrator automatically have access to AirPlus Intelligence. Both can assign the **Intelligence User** role to existing or new users.

- > Navigate to *User Management* 3
- > Click on *Create User*
- > Provide *User Information*
- > Assign role

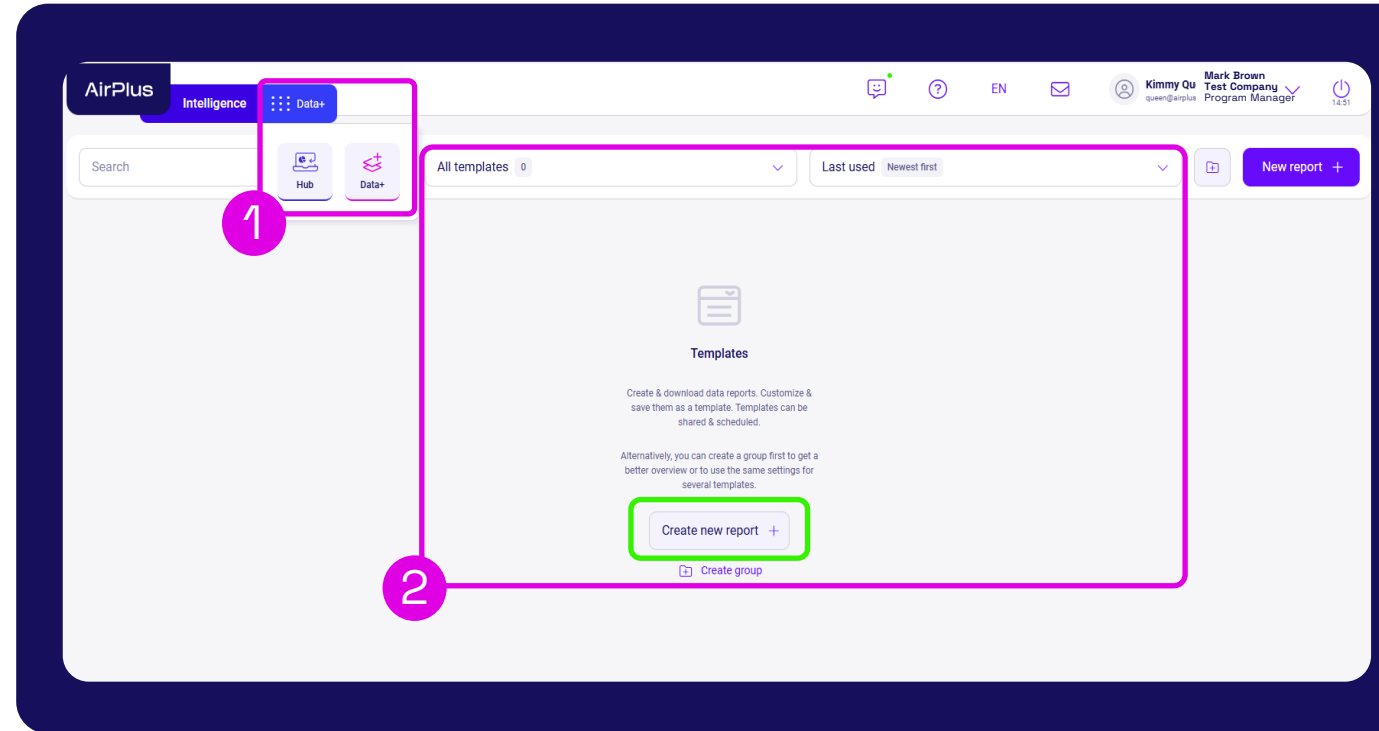

Access Data+ & Template Overview

After logging in to AirPlus Intelligence, you will be automatically redirected to the Hub, the home page. Access the Data+ module by navigating to the top left menu 1.

This takes you to the **Template Overview** page 2, which displays

- your own templates
- those that you have shared with others in your organization
- those that have been shared with you

If this is your first time working with Data+, you may not see anything on this page. **Start creating now!**

2 | Create a Custom Report

[Back to table of contents](#)

Scope Selection: Company vs Geography

Decide on the scope of your future report. Choose between two options.

1 Company Scope

Define your report based on organizational hierarchy, including headquarters, subsidiaries, products, and more.

2 Geographical Scope

Narrow your report by geography. Select the entities you want to be included in your report.

3 Save your scope selection as a default, or

4 create a custom report and proceed to the Report Builder.

Scope Selection

Apply and continue to Report Builder

The Report Builder

A+

Data Preview Slider | Service Column | Attribute Column | Summary Column

- 1 Adjust the **report period** by moving the slider. The monthly charts in this slider are connected to the database and show 5 years of data.
- 2 Select a **service** from the service column and **attributes** from the attribute column.
- 3
- 4 The **summary column** shows everything that has been selected so far in your desired report.
- 5 This number represents the **amount of transactions** that will be included in the report you download.

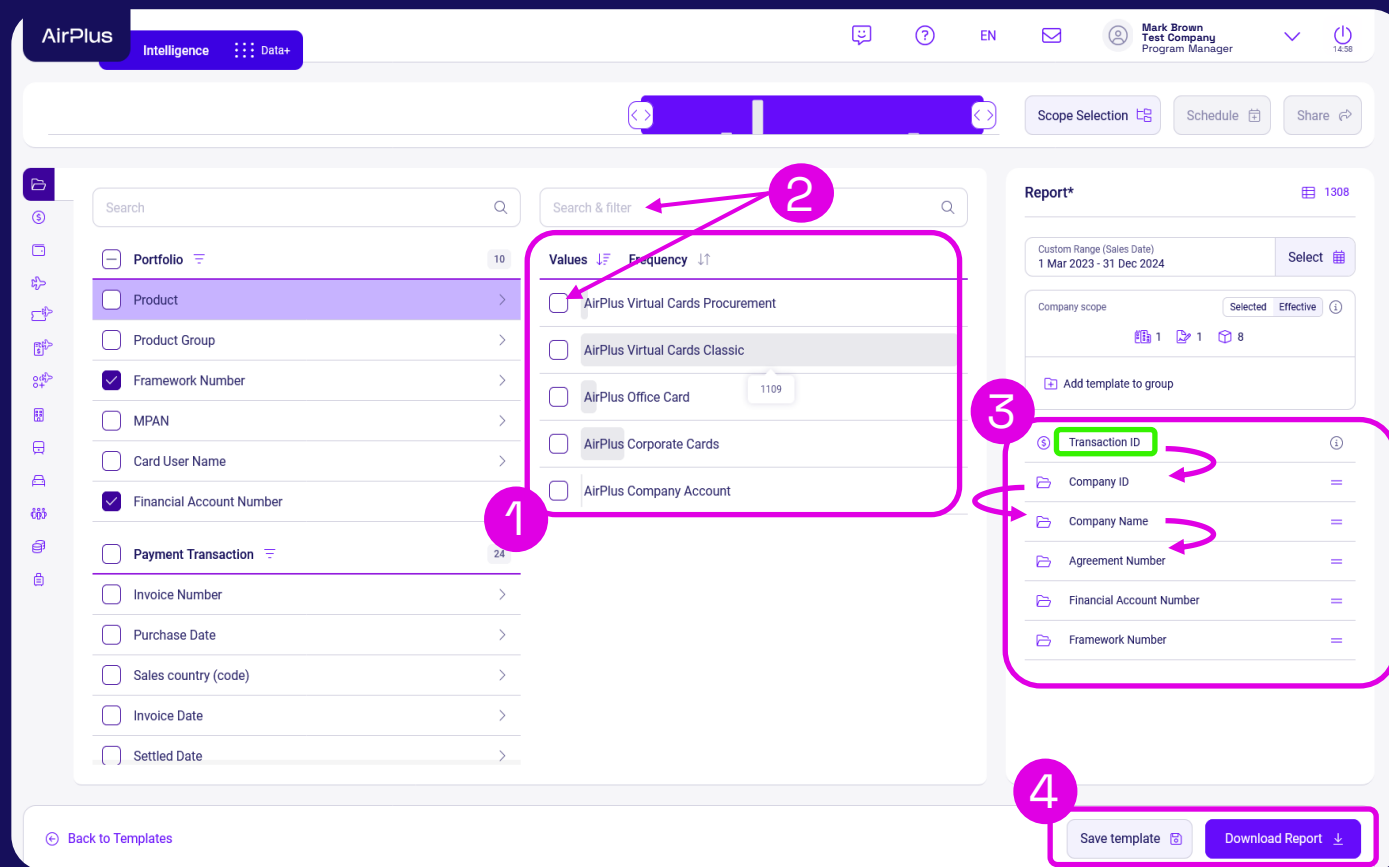

- **Selected** Report Scope: Reflects what is selected in the Scope Selection
- **Effective** Report Scope: Reflects what will be included in the report based on the data and the scope selections, the report time period and the filters applied.

The Report Builder

Preview Column | Values | Sorting | Save or Download

- 1 The **Preview Column** displays a live preview of the values within each attribute in the database. A gray bar behind each value indicates the **amount of data**.
- 2 To apply a filter, either select one of the **values** in the Preview Column or add a custom filter value.
- 3 The **sorting** of the selected attributes in the Summary Column mirrors the sorting in the report. Rearrange them as needed.
- 4 When finished, **save** your report configuration as a template or **download** it directly as an Excel or CSV file.

i The Transaction ID is always included by default, as all reports are at the Transaction ID level.

Scope Selection: Default Settings

Setting general preferences

Configure the default settings that will apply to your future reports:

- 1 **Download file format and language**
 - Excel or CSV
 - Available in English, German, French, Italian, Spanish and Dutch
- 2 **Scope Selection**
 - Date range
 - Company scope

The screenshot shows a 'Default Settings' dialog box with a close button (X) in the top right corner. It is divided into three main sections:

- Section 1 (Annotated with a pink circle '1'):** 'Download file format and language'. It contains two radio button options:
 - Excel File (.xlsx):** Selected. Description: 'Select if you want formatted data. Excel file format is limited to 1 million data records.' A dropdown menu shows 'EN'.
 - CSV File (.csv):** Unselected. Description: 'For a large amount of data that you want to use with custom delimiters and separators.'
- Section 2 (Annotated with a pink circle '2'):** 'Scope Selection'. It contains two selection areas:
 - Selected date range:** A dropdown menu shows 'YYYY-MM-DD'. Below it, a dropdown menu shows 'Dot'. A 'Select' button with a calendar icon is next to it.
 - Selected company scope:** A dropdown menu shows 'Semicolon'. Below it, a dropdown menu shows 'Nothing selected yet.'. A 'Select' button with a list icon is next to it.

At the bottom of the dialog, there are two buttons: 'Cancel' on the left and 'Save Settings' on the right.

3 | Template Overview

Template Overview & Associated Reports

The main features of this page at a glance

The screenshot shows the 'AirPlus' interface. At the top, there's a navigation bar with 'AirPlus', 'Intelligence', and 'Data+'. On the right, there are icons for chat, help, language (EN), email, and a user profile for 'Mark Brown, Test Company, Program Manager'. Below the navigation bar is a search bar and filters for 'All templates' (11) and 'Last used' (Newest first). A 'New report +' button is on the right. The main content area displays a table of report templates. The first row is highlighted with a pink box and numbered 1. It shows 'My first monthly report' with a user icon. Below it, there are two rows for 'CSV File' and 'Excel File', both with green status dots and numbered 2. To the right of these, there are two rows showing 'Used a few seconds ago' and 'Downloaded a few seconds ago', both with clock icons and numbered 3. Further right, there are two rows showing a date range '1 Feb 2025 - 28 Feb 2025' with calendar icons, numbered 4. On the far right, there are 'Download +' buttons and a box showing '2' reports, numbered 5. The bottom of the page has a 'Back to table of contents' button and the page number '13'.

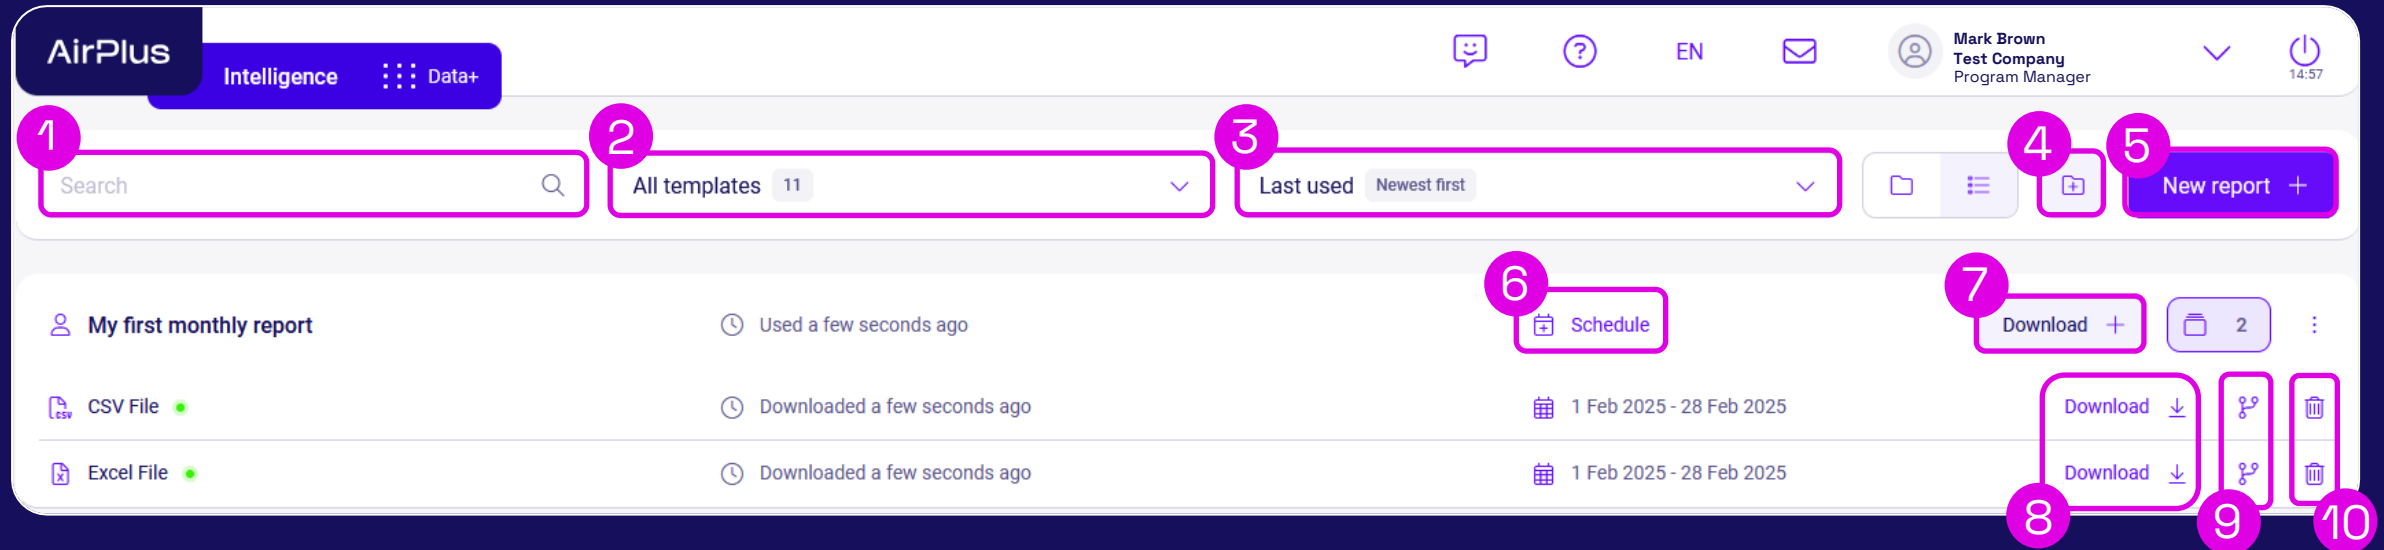

The Template Overview shows:

- 1 The report template name
- 2 The downloaded report file format
- 3 The last time the report was downloaded

- 4 The date range of the report
- 5 The number of reports associated with the template

Template Overview & Associated Reports

To make life a little easier, we have included several other features to this page.

- 1 Report template name search
- 2 Select the type of template displayed in the template list
- 3 Sort order of the template list
- 4 Create groups to manage your templates
- 5 Start creating a new report
- 6 Schedule reports to run on a regular basis

- 7 Download a new report based on the template
- 8 Download the previously created report
- 9 Open the previous version of the template associated with the report
- 10 Delete the report

4 | Schedule a Report

5 | Group Management

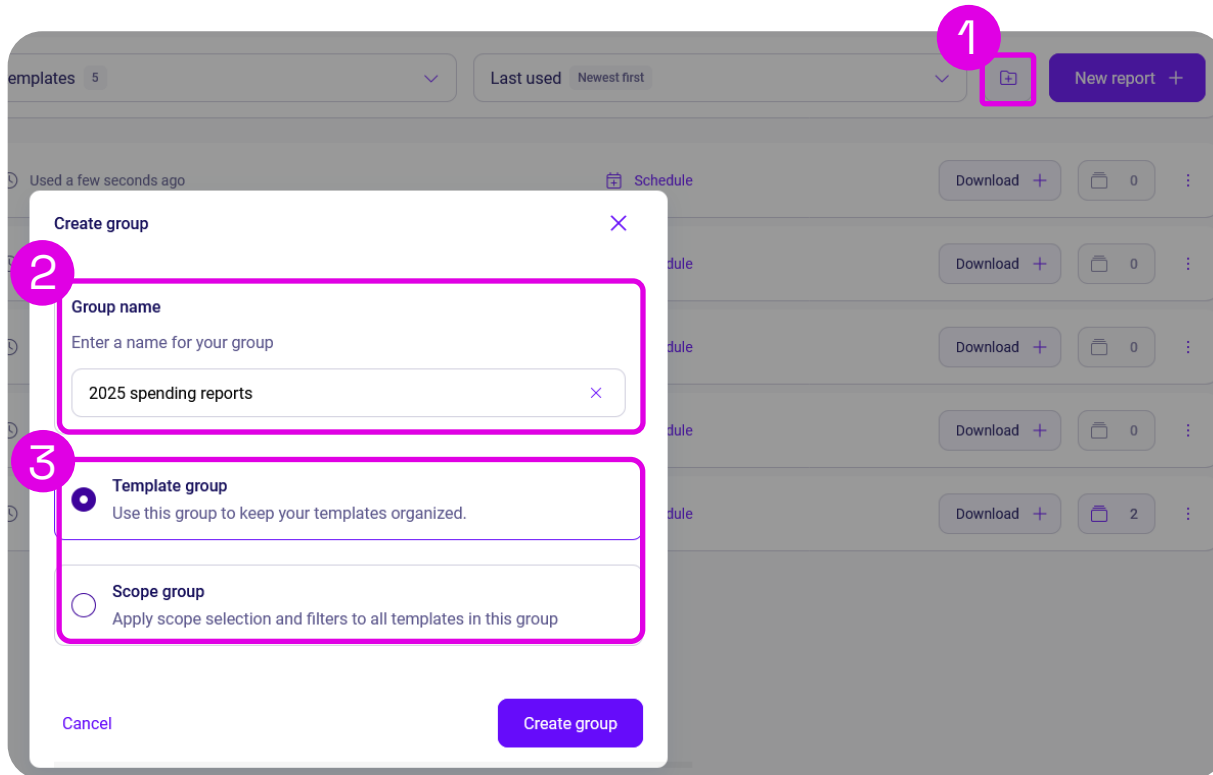

Template groups are used to logically group templates and assign permissions to users.

Each template group can contain several templates.

Create a Group

Create **template groups** to manage your templates and collaborate with others in your organization.

- 1 Create a group
- 2 Enter a group name
- 3 Select if you want to use this group to organize your template

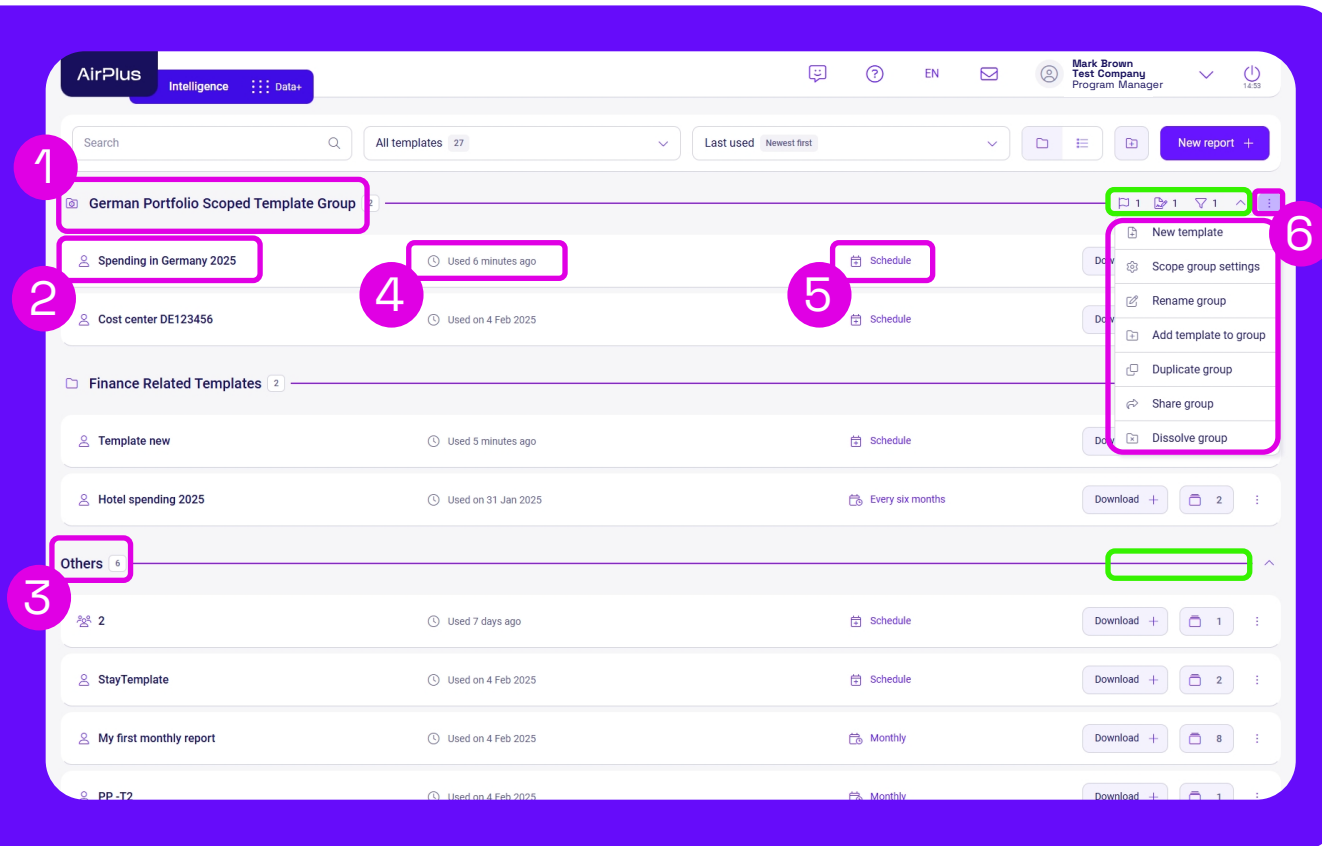

OR

decide whether to apply the scope group selection and filters to all templates in this group.

Group View

A+

Create **template groups** to manage your templates and collaborate with others in your organization.

The Group View ...

- 1 shows the name of the group.
- 2 displays the templates that belong to that group.
- 3 includes a group called *Others*, which contains templates that do not belong to a user-defined group.
- 4 displays the last time each template was used.
- 5 enables the creation of a new schedule or the viewing of an existing schedule's frequency.
- 6 provides the template action menu.

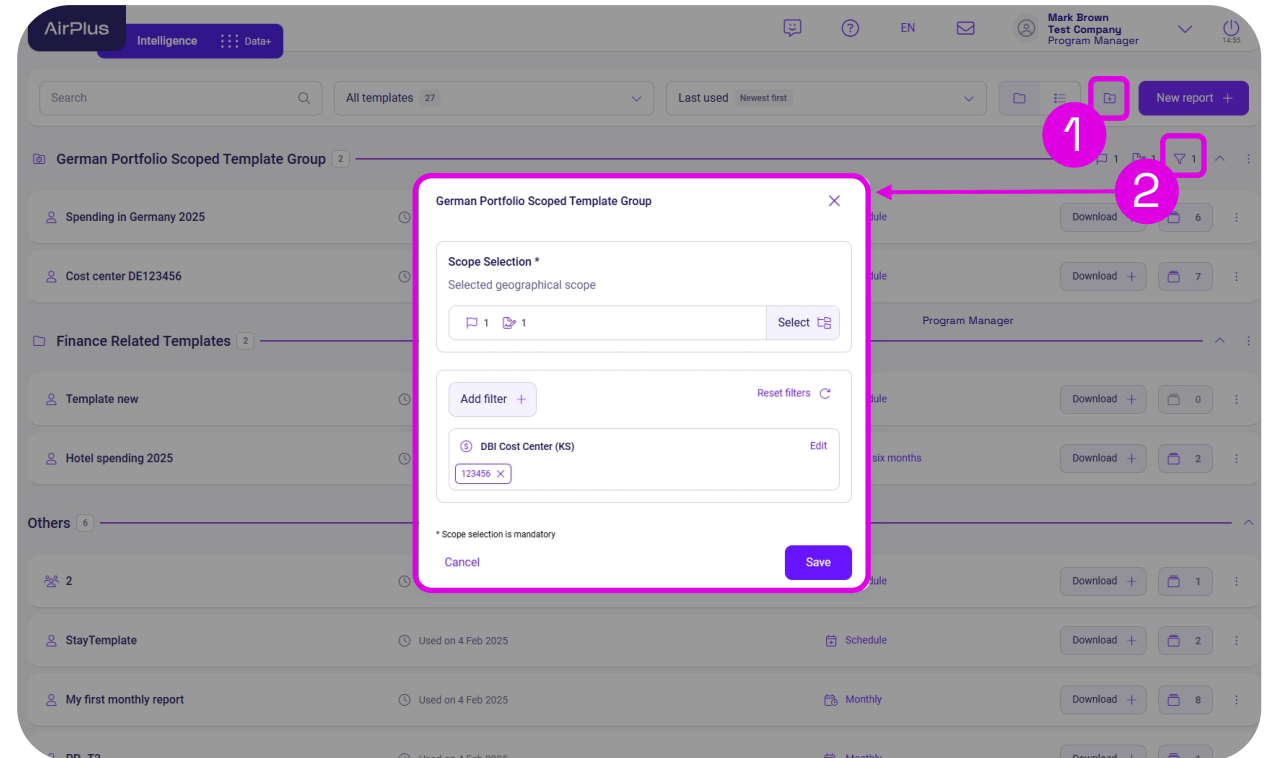

The icons in the top-right menu summarize the scope of the group, such as area, agreement, country, or filters used, and help you distinguish a scope group from a template group.

Scope Selection on Group Level

Select the **folder icon** ① to create a new group and choose Scope Group. The scope selection and filters will be applied to all templates in this group.

Choose the **filter icon** ② to

- edit the scope selection on group level
- edit, reset or apply additional filters

6 | Sharing of Groups & Templates

Template & Group Sharing = Collaboration

Collaboration is the key to success

Share or unshare report templates

Unshare Scope Group

If the group is shared, you can move your templates into it - the scope will be adjusted. Then you can make it **visible** or **invisible** to others.
