

AirPlus Electronic Billing

Flexible automation of your business processes

Flexible automation of your business processes

AirPlus Electronic Billing lets you integrate transaction and statement data directly into your travel expense reporting and financial accounting systems. Determine the data formats and transmission channels for your electronic billing data in the AirPlus Portal.

How can I order AirPlus Electronic Billing?

If AirPlus Electronic Billing is included in your AirPlus agreement, you can order electronic billing data deliveries during the framework ordering process in the AirPlus Portal.

We offer three different options for this:

- ➔ **Option 1 (self-service):**
Creating a new electronic billing profile
- ➔ **Option 2 (self-service):**
Assigning your AirPlus framework to an existing electronic billing profile
- ➔ **Option 3 (manual):**
Assisted by your AirPlus Service Team

Flexible automation of your business processes

Files are provided either in the AirPlus Portal or by your chosen transmission route. You have access to the data files in the AirPlus Portal for 12 months from the time they are uploaded. You can download them individually or in bulk.

What data formats are available?*

According data sets

Statement data to be exported, e. g. to financial accounting systems

- CSV
- XML
- EDIFACT
- LARS
- ATXCollect

Daily data sets

Transaction data to be exported, e. g. to travel expense systems

- ATX
- ATXplus
- EDIFACT
- CDF3

Your advantage at a glance

- Reduced costs thanks to computerized data entry and automated business processes
- Data security thanks to data encoding prior to transmission
- Sustainability thanks to paperless processes
- Compatibility with diverse travel expense reporting and financial accounting systems
- Support of diverse data transmission channels

How to order electronic billing data deliveries

Option 1:

Creating a new electronic billing profile

1. Select data formats for your **electronic statements**
2. Select data formats for your **daily transactions**
3. Define **automatic transfer** of data to the key travel & expense providers
Important note: Please contact your provider/s in advance

i When your order is completed, you will receive an EDI number for your new profile. You can view it under the Electronic Billing tab in the Portal.

How to order electronic billing data deliveries

Option 2:

Assigning you AirPlus framework to an existing electronic billing profile

Select an **existing electronic billing profile** (EDI number - Electronic Data Interchange) and assign it to your new framework.

Previously ordered electronic billing data deliveries can be viewed in the **order form** under the Frameworks tab.

i Please do not change the settings of an existing electronic billing profile! Changes to an existing profile will affect all existing AirPlus frameworks and cards linked to it. If you would like to change the settings, please contact your AirPlus Service Team for assistance.

How to order electronic billing data deliveries

Option 3:

**Assisted by your AirPlus Service Team
(Manual process for when self-service options
1 and 2 don't fit your needs)**

- Would you like to change your electronic billing settings of an existing AirPlus framework?
- Would you like to receive customized electronic billing data?
- Would you like other transmission channels?

**Please don't hesitate to contact
your AirPlus Service Team.**

We are happy to help you find the
right solution.
